

## The Knowledge Exchange: The UK's leading policy research tool.

The Knowledge Exchange offers a user-friendly and time-saving platform which helps organisations understand and stay up-to-date with public and social policy across the UK. We are the trusted partner of government, public agencies, local authorities, research consultancies and the third sector.

### The Knowledge Exchange community

The benefits of The Knowledge Exchange are recognised by a wide cross-section of organisations. We provide evidence and insight to underpin the work of policymakers, researchers and frontline staff in the public sector.

The database is made up of extensive resources covering all areas of public policy, including housing, education, the environment, health and social services, economic development, planning, and transport.

For a cost-effective subscription, The Knowledge Exchange offers all of the following and more:

- **Access to our specialist database** – on UK public and social policy
- **Precise research searches** – use our friendly and intuitive search functionality to quickly identify appropriate resources

- **Simple synopsis** – easy to read summary of each report or article enables you to quickly check the relevance, saving time when searching
- **Email alerts** – automatic updates on saved searches alerting you to new or updated funds relevant to your profile
- **Case studies** – learn from best practice and examples of policy implementation from across the UK
- **CPD and learning** – supports the development of staff in roles and careers
- **Briefings for clients** – summaries of recent resources on topical policy issues
- **Postal loans** – borrow books from our extensive library and read at home

### Dedicated support

If you have a query, our expert account managers, trainers and help desk team can help with their specialist knowledge of your policy research needs.
